# WORK EXPERIENCE

### SOFTWARE DEVELOPER, MAP ACADEMY TUTORS
JULY 2020 - DECEMBER 2020

Worked with scrum master and team in an agile environment to create an application from start to finish. I was responsible for developing all the back-end. I also, sketched and created the azure database and integrated it within the application. Attended daily stand-ups and conducted meetings with the product owner regularly. Programming languages and frameworks that were used on this project: Microsoft Azure, Visual Studio, ASP.Net MVC, Entity Framework Identity, GIT, Microsoft SQL Server, C#, HTML, CSS, JavaScript.

### CUSTOMER SERVICE REPRESENTATIVE, CIRCLE K
OCTOBER 2017 - OCTOBER 2018

Aided customers and handled various duties such as operating the POS system and lottery machine, greeting customers, helping people locate products, stocking shelves, and ensuring the inside and outside of the store was clean and organized.
